

## Arch Cape Forest

---

"A community forest project of  
the Arch Cape Domestic Water Supply District"  
32065 East Shingle Mill Lane  
Arch Cape, OR 97102 • 503.436.2790

Dear Arch Cape Neighbor,

### **GREAT NEWS!**

## **WE HAVE ALMOST RAISED THE \$5.5 MILLION NEEDED TO BUY THE ARCH CAPE FOREST!**

To access the full funding and steward the land, we need to raise \$1 million more. **We have a goal of raising \$500,000 by the end of 2021.** Please join us in protecting our forest and drinking water for now and future generations.

Historic logging practices have contributed to a decrease in our drinking water quality & quantity and increase the cost of our drinking water production. Local forest management will protect our water while providing recreational opportunities and wildlife habitat forever. There will be some sustainable timber harvest to increase forest health and support forest management and the cost of producing our water.

Learn more and read the draft Forest Management Plan at [archcapeforest.org](http://archcapeforest.org) and leave your comments.

We invite you to join those who have already invested in the Arch Cape Forest to ensure our watershed is protected for us and our children. The more money we raise up front the less timber harvest will be necessary to cover the cost of care.

### **Your gift is key to our success.**

**If each of us donates we can succeed in owning our forest and protecting our water. Thank you for considering a generous donation today.**

Please mail your contribution in the enclosed envelope or you can go to [archcapeforest.org](http://archcapeforest.org) to donate; your tax deductible check, VISA, RMD and stock transfers are gladly accepted.

We're happy to answer any questions you have and thank you for your support of this crucial project.

Sincerely,  
The Arch Cape Domestic Water Supply District,  
Board of Directors
